Directions:

Power Brite is a highly concentrated cleaner. For best results use one part of Power Brite to 50 parts of cold water. Apply solution with brush or spray starting at the bottom and working upwards. Allow to stand two or three minutes, then rinse with cold water. For difficult to clean surfaces, repeat if needed, allowing Power Brite to remain a little longer before flushing with water. DO NOT allow Power Brite to come in contact with windshields or glass.

Danger!

Causes severe burns which may not be immediately painful or visible. Do not contact skin, eyes, and or clothing. Wash thoroughly after handling. Avoid contact with skin, eyes and clothing. When applying **Power Brite** use safety equipment including neoprene gloves, boots, face shield, and acid resistant pants and jacket. Use this product with extreme caution. Will cause skin irritation.

Inhalation: Remove affected person to fresh air; get immediate medical attention with emphasis on hydrofluoric acid exposure. If breathing is difficult, supply oxygen. If breathing has stopped, begin artificial respiration.

Skin: Remove contaminated clothing while flushing affected area with drenching shower for 5 minutes. Launder contaminated clothing before reuse; seek immediate medical attention with emphasis on hydrofluoric acid exposure. Apply 2.5% Calcium Gluconate ointment to contacted area.

Eyes: Check for and remove contact lenses. Immediately flush eyes for 5 minutes in clear running water while holding eyelids open; seek immediate medical attention with emphasis on hydrofluoric acid exposure. Irrigate open eyelids with 500 to 1,000 cc's of 1% Calcium Gluconate in saline solution.

Ingestion: Drink high amounts of calcium based antacid in water followed by milk or milk of magnesia; DO NOT induce vomiting; never give anything by mouth to an unconscious person; seek immediate medical attention with emphasis on hydrofluoric acid exposure.
