

Directions:

- **For normal build up:** use 12 ounces of stripper per gallon of warm water.
- **For heavy build up:** use 20 ounces per gallon of warm water.
- Apply solution freely to floor and allow floor to dry.
- It may be necessary in stubborn cases to scrub with brush, pad, or steel wool.
- Old finish and soil can be easily removed from floors using squeegee, or vacuum.
- Mop entire surface with clean mop to remove all foreign material before applying new floor finish.
