

## Directions:

- CARPET CLEANING: Use 2-4 ounces in each gallon of any diluted shampoo or steam concentrate product to eliminate organic odors. More extreme intensity of offending odors may require a second application of a more concentrated dilution.
- HOSPITALS: Use a drop or two for bed pans, urinals, portable toilets, and drainage bottles. Deodorizer is effective in washrooms, toilets, garbage cans, disposals, litter pans, closets or enclosed areas.
- HOTELS & MOTEL: Put a few drops on corners of each bed frame, in the carpeted corners of each room, in toilet bowls, and in air conditioner vents.
- PAINT ODOR: Place several drops of solution drops in the corner of each room.
- ROOM DEODORIZING: Place a few drops in a pan of water and let stand.
- MOPPING: Use two ounces in a bucket of scrub water for all areas being scrubbed.
- Can be used with foggers, sprayed, mopped, or applied with a sponge.
- Works instantly, is water soluble and freshens the air.
- Whether you spray, mop, wipe, or soak with this product, mix one to five ounces to each gallon of water.
- Apply product directly to the surface to be treated.
- Adjust the dilution ratio to counteract the odor while leaving the air fresh and clean scented.
- Can be used indoors or out on any water safe surface.
- After applying, allow surface to air dry.
- Reapply as needed.

**KEEP OUT OF REACH OF CHILDREN.**
