

Shine On - Flatware/Tableware Cleaner & Detarnisher

PRODUCT #: PK-6542

TRANSPORT INFO:

Proper Shipping Name - Not Regulated for Transport by Truck

DOT Hazard Class - Not Regulated

Packing Group - Not Regulated

ID# - Not Regulated

CHARACTERISTICS:

Appearance: Purple Liquid
 Odor: Characteristic
 pH: 13.00
 Specific Gravity: 1.048
 Weight: 8.74
 Viscosity: Water Like
 Flash Point: N/A
 Dilution: 1:32

ADVANTAGES:

Shine On is a fast-acting professional-grade alkaline liquid designed for use as a pre-soak for silverware and silver table service. It removes tarnish and stains from silver plate and sterling utensils. When used as directed, will not harm fine silver. As an excellent pre-soak, it quickly penetrates and saturates soils for their more efficient removal in dishwashing machines. Produces excellent cleaning results in both hard and soft water supplies. This detarnishing procedure removes sulphur type tarnish and stains with an easy application in a soak solution utilizing aluminum foil. It softens soils including cream rings. Shine is a high quality product and provides economical, time-saving and problem solving results.

DIRECTIONS:

Pre-soak: To soften soil material on silverware, (including cream rings in silver creamers), pre-soak all silver in one (1) or two (2) ounces per gallon solution of PRE-SOAK prior to machine washing. **DETARNISHING:** For the removal of sulfur type tarnish and stain dilute one ounce per gallon of water at 140°F, minimum. Silver must be in contact with aluminum to facilitate the galvanic action necessary to detarnish. Aluminum foil may be placed in the bottom of a plastic container.

PRECAUTIONS:

Inhalation: Remove affected person to fresh air; wash mouth and nasal passages with water repeatedly; if breathing difficulties persist seek medical attention.

Skin: Remove contaminated clothing; wash affected area with soap and water; DO NOT attempt to neutralize with chemical agents; if irritation persists, seek medical attention. Launder contaminated clothing before reuse.

Eyes: Check for and remove any contact lenses. Immediately flush eyes with clear running water for 15 minutes while holding eyelids open. Seek medical attention immediately.

Ingestion: Drink two glasses of water or milk; give diluted vinegar or lemon juice to conscious person; DO NOT induce vomiting; seek medical attention immediately.

AVAILABLE IN:

Gal. Jug, 5 Gal. Bucket, 55 Gal. Drum,
 275 Gal. Tote, 300 Gal. Leg Tank or delivered via Tanker Truck
