

Cab Wash

 - High-Lubricity Truck Cleaner

Jamson Labs / PowerKleen™

Chemical Solutions Since 1973

PRODUCT #: PK-6555**CHARACTERISTICS:**

Appearance: Red Liquid
 Odor: Characteristic
 pH: 12.90
 Specific Gravity: 1.026
 Weight: 8.56
 Viscosity: Water Like
 Flash Point: N/A
 Dilution: 1:10

ADVANTAGES:

Cab Wash is a high-lubricity non-corrosive truck cleaner that's excellent for heavy road film. It is perfect for hand washing or for high pressure cleaning systems. Cab Wash is safe on windshields and paints and is fortified for long-lasting suds.

DIRECTIONS:

FOR HAND WASHING: Dilute 10 parts water to 1 part Cab Wash in a wash bucket. Brush the entire truck starting from the roof and working down to the wheels. Rinse thoroughly and allow to air dry.

FOR AUTOMATIC, COIN OPERATED, OR HIGH PRESSURE CLEANING SYSTEMS: Use one ounce to one gallon of water. Automatic recycling car wash systems should use only one half gallon of product to each five hundred gallons of water in the holding tank. This dilution will give an abundance of suds and ensure long brush life.

PRECAUTIONS:

Inhalation: None Expected. Remove affected person to fresh air; if symptoms persist seek medical attention.

Skin: None Expected. Remove contaminated clothing; wash affected area with soap and water; launder contaminated clothing before reuse; if irritation persists, seek medical attention.

Eyes: Check for and remove contact lenses. Flush eyes with clear running water for 15 minutes while holding eyelids open; if irritation persists, seek medical attention.

Ingestion: Give two glasses of water for dilution; DO NOT induce vomiting; never give anything by mouth to an unconscious person; seek medical attention.
