

Directions:

- Add ten (10) gallons of Snow Plow Wax to an open head 55 gallon drum.
- Add enough water to fill drum.
- Stir while filling drum with water and continue until completely mixed.
- Product is now ready to apply through suitable spray applicator.
- Spray from the diluted product three (3) to five (5) ounces per plow blade.
- Ten (10) gallons of Snow Plow Wax Concentrate will put a glossy wax like finish on 2000 to 3000 plow blades.
- For Maximum economy of operation, adjust flow of product to lowest rate that will give adequate waxing and drying efficiency.
- Snow Plow Wax is richly concentrated to spray on an even protective coat to the final rinse area.
- Snow plow blades may be cleaned in the conventional manner by mitting or power washing.

**KEEP OUT OF REACH OF CHILDREN.
 DO NOT TAKE INTERNALLY.
