

**Directions:**

- **For hand washing:** Dilute one or two ounces per gallon of water in a wash bucket. Brush the entire car starting from the roof and working down to the wheels. Rinse thoroughly and allow to air dry.
- **For automatic, coin operated, or high pressure cleaning systems:** Use one ounce to one gallon of water. Automatic recycling car wash systems should use only one half gallon of product to each five hundred gallons of water in the holding tank. This dilution will give an abundance of suds and will ensure long brush life.

# Road Wash

## HEAVY-DUTY CAR & TRUCK CLEANER

**Concentrated professional-grade formulation**

- HIGH LUBRICITY
- NON-STREAKING
- FORTIFIED FOR LONG LASTING SUDS
- EXCELLENT ON HEAVY ROAD FILM
