ADVANTAGES:

This premium all-phase pressure-washing cleaner/degreaser concentrate contains the highest quality non-toxic penetrants and surfactants. Fastbreak is highly effective in dissolving hydrocarbon deposits, oil, road film, soil, scum, etc. Fastbreak is specifically developed for hot and cold pressure cleaning systems used in fleet and truck washing without brushing. With built in corrosion inhibitors as well as water softening agents, Fastbreak prevents scale build up in automatic equipment. Fastbreak has proven to be a very effective cleaner for vehicles, oil rigs, construction equipment, mining machinery, floors, walls, plastics, engines, whitewall tires, and even something as delicate as ultra sound equipment. Use fastbreak as a degreaser for any tough cleaning job.

DIRECTIONS:

Fastbreak is a concentrate and must be diluted with water to activate special cleaning agents. Depending on type of equipment used, vary dilution and contact time where necessary for greater or lesser cleaning. The highest dilution ratios should be used when washing in the sun or extremely hot surfaces.

Hot High Pressure:

Light cleaning: 1 to 50 parts water

Heavy cleaning: 1 to 10 parts water

General Cleaning (floors, walls, etc.):

1 to 30 parts water

Heavy Grease:

1 to 5 parts water

PRECAUTIONS:**Inhalation:** Remove affected person to fresh air; if symptoms persist seek medical attention.**Skin:** Remove contaminated clothing; wash affected area with soap and water; launder contaminated clothing before reuse; if irritation persists, seek medical attention.**Eyes:** Check for and remove contact lenses.
