ASPHALT PRODUCTS

ASPHALT PRODUCTS

A blend of aliphatic and aromatic hydrocarbons with emulsifiers developed to minimize the costly time and clean up operations formerly required to restore vehicles and equipment contaminated with tar, bitumen, asphalt, stains, grease and sludge. OIL FLOW is non-corrosive, will not harm any metal surfaces, contains no acid or alkalies. OIL FLOW is versatile and may be used in virtually any industry where asphalt, tar, grease or sludge are a problem.

Directions:

Apply OIL FLOW undiluted by brush or sprayer. Allow it to penetrate and dissolve for at least five minutes. Flush with water under pressure. Heavier deposits will require longer soaking and light brushing. Avoid prolonged contact with rubber and painted surfaces.

**CAUTION
FOR INDUSTRIAL USE ONLY**

OIL FLOW

EMULSIFIABLE ASPHALT & TAR REMOVER

INDUSTRIAL FORMULA

- Minimize the costly time and clean up operations formerly required to restore vehicles and equipment contaminated with tar, bitumen, asphalt, stains, grease and sludge.

 1 Gal.

 5 Gal.

 55 Gal.

 275 Gal.

Inhalation: Remove affected person to fresh air; if symptoms persist seek medical attention.

Skin: Remove contaminated clothing; wash affected area with soap and water; launder contaminated clothing before reuse; if irritation persists, seek medical attention.

Eyes: Check for and remove contact lenses. Flush eyes with clear running water for 15 minutes while holding eyelids open; if irritation persists, seek medical attention.

Ingestion: Give two glasses of water for dilution; DO NOT induce vomiting; never give anything by mouth to an unconscious person; seek medical attention.
